Chevrolet 2006 Corvette Z06

The Chevrolet 2006 Corvette Z06 is equipped with P325/30Z R19 rear tires. The rear tires are 13.6 inches wide and will not fit through a typical car wash conveyor.

To prevent potential damage, General Motors is posting a sign on the shifter of the 2006 Corvette Z06 and is also including a notice in the owners manual (Document ID #1506592) warning the owner "that if you drive your vehicle through an automatic car wash that does not have enough clearance for the wide tires and wheels, you could damage your car". It is suggested that owners find an alternative professional car wash where ground clearance will not be a factor.
